

City of 
Sunderland

City Plan

2026–2035

Developing our City Plan

We are pleased to present the City Plan 2026–2035 which sets out:

Our **vision** for the Sunderland of 2035.

Our **ambitions** for the city and its people. Collectively, the ambitions guide Sunderland’s continued transformation into a great place to live, work, achieve and play and where people are proud to belong.

The three key **themes** supporting the delivery of the plan. Under each theme, a number of commitments provide a focus for our services and activities as we work towards realising our ambitions and vision.

An **indicative timeline** setting out the key projects and initiatives we’re undertaking in the coming years.

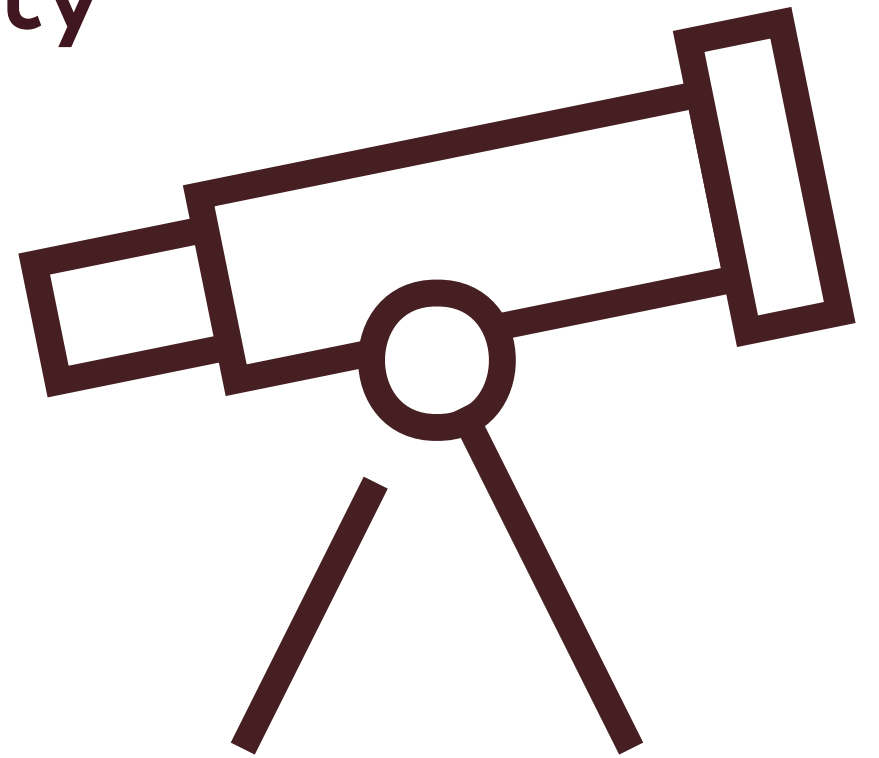

We want to ensure that everything we do has a positive, demonstrable impact on achieving our ambitions and vision, and our activities to deliver the plan are shaped by evidence and data.

We are therefore developing an Impact Framework that will enable us to plan ahead effectively and report on progress in a meaningful way.

The Sunderland Partnership

Our vision

“Sunderland will be a connected, international city with opportunities for all”

Our ambitions

Everyone's talent is nurtured - our children and young people are achieving the best outcomes, everyone is connected to opportunities, and whatever your aspiration, you can achieve it in Sunderland

Our ambitions

Inward investment, job creation and high performing businesses and employers create opportunities for all residents of the city, with Sunderland making a significant contribution to the UK's economic growth

Our ambitions

People live healthier, longer lives - health and wellbeing outcomes are significantly improved and life is better because we live in Sunderland, rather than any other place

Our ambitions

Sunderland is a place recognised for its natural and built assets; the city has a growing, strong and inclusive offer for residents and visitors - it's easy to find something that captures the imagination in Sunderland

Our ambitions

All our people and communities thrive and feel proud, and are stronger together; everyone is playing their part

Our ambitions

Sunderland will play its role in tackling the global challenge of climate change, working together across the city to be carbon neutral by 2040

Our themes

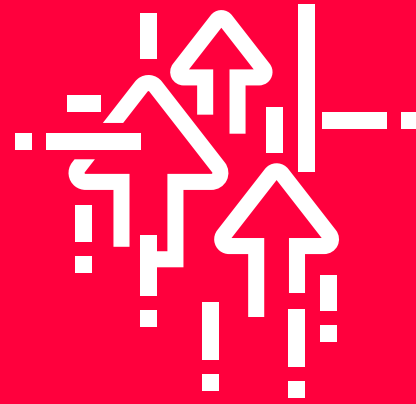

**A dynamic
smart city**

**A healthy
smart city**

**A vibrant
smart city**

A stronger city with increased business, housing and cultural opportunities acting as a catalyst for economic growth and prosperity

Equitable opportunities and the best life chances for children and young people with poverty and its impacts significantly reduced

Great transport links with low carbon and active travel opportunities for everyone

Transformative digital technology, accessible to all

A dynamic smart city

we will have:

A low carbon city

More city residents have the skills and qualifications which are sought by employers and support career progression

Increased employment in more jobs that are fulfilling and better compensated

A clean,
welcoming and
attractive city
with people
feeling safe

A healthy smart city

we will have:

More and better
homes meeting
everyone's needs
and aspirations,
including affordable
housing and homes
that support
independence and
wellbeing

Reduced inequalities
supporting
communities to build
strong foundations
for lifelong health,
and targeting help
for those most in
need so more people
are living healthier,
longer and more
active lives

Great social care and
support enabling those
who need it to live the
life they choose

More resilient residents and cohesive, inclusive communities in the face of ongoing challenges

More people visiting Sunderland, with more residents shaping and participating in cultural or sporting events

A strong sense of pride amongst residents, and communities feeling engaged in shaping Sunderland's future and the opportunities being created

A vibrant smart city

we will have:

More people being active and participating in their communities

Stronger collaboration and shared leadership between partner agencies and the voluntary and community sector, fostering trust and empowering communities
