

IAMP AAP Publication Draft: Schedule of Proposed Modifications August 2017

Under section 20(7C) of the 2004 Act, the Council request the appointed Inspector to recommend any main modifications to the plan that are necessary to make it sound and legally compliant.

There are two types of modifications;

- **Main Modifications** - are those that materially affect the submitted Plan, which are required to ensure that the plan is sound and legally compliant.
- **Additional Modifications** - are those where they will not impact upon the intent or interpretation of the Plan, or go to the heart of whether the plan is 'sound' or not. The minor changes outlined are changes such as typographical errors and factual updates.

The Councils proposed minor modifications to the PSD01 IAMP AAP Publication Draft (August 2016) upon submission in February 2017 (PSD6) and considered that these do not materially affect the substance of the plan, its overall soundness or the submitted Sustainability Appraisal. The Councils also proposed a number of grammatical and typographical minor 'additional' modifications, such as changing upper case to lower case letters. These changes were included in a schedule (PSD6) but were also illustrated in PSD7 IAMP AAP Publication Draft incorporating Proposed Modifications (PSD7).

The Councils during the EiP have identified a need for various further modifications. The Councils have prepared this schedule to set out all modifications proposed since the Publication Draft AAP (PSD1) was consulted on. The Councils' propose to treat all of these modifications as 'main modifications'.

Modifications.

The modifications are set out in Plan order. Where it has not been possible to show information (such as tables, diagrams and maps) within the table, these are provided in Appendix 1.

This is a living document that will be updated during the examination process.

The following format has been used to denote modifications:

Strikethrough text = text proposed for deletion

Underlined text = new text proposed

MM2.	(Inner front page)		Inner front page	Public consultation on this publication draft Area Action Plan (AAP) will take place between 1 August and 26 September 2016. Formal representations and comments received will be taken into consideration, prior to the draft AAP being submitted to the Planning Inspectorate for independent examination. If declared 'sound' and fit for purpose, the final IAMP AAP will be adopted by Sunderland City Council and South Tyneside Council as part of their respective Local Plans. Local Plan Development Plan Document adopted by Sunderland City Council and South Tyneside Council on DD MMM YYYY Foreword <u>"As neighbouring councils, we recognise the importance of working in partnership to create growth and opportunity in Sunderland and South Tyneside for many generations to come.</u> <u>Our commitment to the delivery of an International Advanced Manufacturing Park (IAMP) that spans our boundaries is based on the knowledge that this will significantly grow our economies. Through the delivery of the IAMP, on the land north of Nissan, we want to build on our strengths in automotive and advanced manufacturing and increase opportunities for enterprise and employment both here and in the wider region.</u> <u>In Nissan we have the largest and most productive automotive plant within Europe, producing over 500,000 cars each year, and the IAMP will support this with 260392,000 square metres of floorspace over a 400 150 hectare site. We anticipate circa 5,2007,850 jobs being created across the advanced manufacturing and automotive sectors with companies that will benefit from being close to Nissan and from the infrastructure and skilled workforce that exists here.</u> <u>This IAMP Area Action Plan has been prepared jointly by our councils to establish the planning policy framework that is needed to successfully deliver the IAMP. It takes into account the development's surroundings, the infrastructure and safeguards needed and the sustainability of the IAMP. Aside from being of utmost importance to Sunderland and South Tyneside, the development of the IAMP links to the North East Local Enterprise Partnership's Strategic Economic Plan and has been designated as a Nationally Significant Infrastructure Project (NSIP) by Government.</u> <u>Our vision for the IAMP, as described in this Area Action Plan, is one shaped by evidence, ambition and extensive consultation with residents, business and partners. In IAMP we see a hugely significant opportunity for the region and indeed the whole UK."</u>	<i>Insert full date of adoption.</i> To include a foreword to set the context for IAMP to clarify floor space, size of site and jobs.

		Para.2		policy framework to guide the comprehensive delivery development of the IAMP, through development of the land to the north of Nissan's existing car manufacturing plant, located within the administrative areas of Sunderland and South Tyneside. The AAP sets out planning policies to direct and enable the comprehensive development delivery of a high quality, employment development site which is targeted at automotive and advanced manufacturing end users, and their supporting facilities.	
MM9.	2	1.1 Para.3	3	...The IAMP AAP has been prepared... Sunderland City Deal (in partnership with South Tyneside) (hereby referred to as the City Deal).	For clarity
MM10.	2	1.1 Para.4	4	The IAMP AAP is a plan for the next 15 years (covering the period 2017 to 2032). The AAP sets out planning policies to direct and enable the comprehensive delivery of a high quality, employment development which is targeted at automotive and advanced manufacturing end users, and their supporting facilities.	For clarity and to reflect plan period
MM11.	2	1.1 Para.5	5	The IAMP was designated by the Secretary of State as nationally significant, a Nationally Significant Infrastructure Project (NSIP) in September 2015. That means that the IAMP proposal itself, within the designated boundary for the Nationally Significant Infrastructure Project (NSIP), must be implemented authorised by a Development Consent Order (DCO) under the Planning Act 2008. The Councils intend to submit their application for a DCO application is expected to be submitted during 2017.	For clarity and to reflect changing circumstances
MM12.	2	1.1 Para.7		The IAMP AAP Publication document is the final draft version of the IAMP AAP. It has been made available for consultation to the Planning Inspectorate. This is a formal opportunity for the local community and other interested stakeholders to consider the IAMP AAP. If the Planning Inspectorate finds the IAMP AAP to be 'sound', it will be adopted by the Councils. Once adopted, the IAMP AAP will form part of the statutory Local Plans for both Sunderland City Council and South Tyneside Council.	Superseded by events
MM13.	2	1.1 Para.8		The IAMP AAP Publication document have been published alongside the Sustainability Appraisal which has informed the development of the IAMP AAP to ensure it fully considers all opportunities to promote sustainable development.	Superseded by events
MM14.	2	1.1 Para.9		The IAMP AAP is also accompanied by a series of Technical Background Reports and other technical evidence base documents which have informed the preparation of the IAMP AAP. The supporting evidence documents for the IAMP AAP can be found at: www.sunderland.gov.uk/iamp-development-plan www.southtyneside.gov.uk/localplan	Superseded by events
MM15.	3	2.1 Para.1	7	The IAMP AAP provides the planning policy framework context for the comprehensive development delivery of a development comprising of approximately 260392,000sqm of floorspace for principal and related supporting uses. Principal uses are defined as production, supply chain and distribution activities directly related to the Automotive and Advanced Manufacturing sectors, automotive and other advanced manufacturing, engineering and related distribution businesses. This would be delivered on a site of 400150ha. In addition, 50ha of land is safeguarded for possible future developments of these uses and 135110ha of adjacent land would be retained for ecological and landscape mitigation. This Mitigation Area would not be developed but and remain in the Green Belt.	For clarity and consistency to reflect changes to floorspace and approach top safeguarded land.
MM16.	3	2.1 Para.2	8	The site is identified by the IAMP AAP site boundary and is shown in Figure 1.	For clarity and consistency
MM17.	3	2.1 Para.3	9	The Ppolicies Mmap (Appendix A) presents the sub-areas for the illustrates the IAMP policy allocations and designations, including IAMP AAP including:	For clarity

				estimates that supply chain production worth £3-4bn could be brought within the UK. In October 2016 Nissan has recently announced additional production in Sunderland of the next-generation Qashqai and X-Trail. Given the recent growth and the new models, Nissan's supply chain has seen, and will continue to see, significant growth. Some of this supply chain is in the North East of England but in addition, Nissan currently sources around £0.67 billion worth of components annually from outside the North East of England. It is likely that some of this growth will look to relocate to the North East of England and potentially into the vicinity of the Nissan plant, given the increased demand from Nissan and the need to secure its supply chain.	Department for Business, Innovation and Skills (BIS) and the Department of Energy and Climate Change (DECC) to form the Department for Business, Energy and Industrial Strategy (BEIS)
MM24.	4	2.3 Para.3	16	<ul style="list-style-type: none"> Site size: ...ranging from 9,000sqm to 37,000-sqm; Adjacency to industry: Transport links: theThe... Site availability: Landland... 	For consistency
MM25.	4	2.4.1	19	The NELEP published the SEP for the North East of England in 2014. The aim of the SEP is to create "more and better jobs" to address the productivity gap between the North East of England and the best performing areas within the UK.	For clarity
MM26.	5	2.4.2 Para.1	20	The Sunderland City Deal (in partnership with South Tyneside) was signed between the two Councils and the Government in 2014. The City Deal has five key aims: <ul style="list-style-type: none"> Delivery of the International Advanced Manufacturing Park; Commitment to co-designing a local Skills Compact with local businesses; Delivery of the New Wear Crossing; Infrastructure for Ultra Low Emission Vehicles; and Sunderland and South Tyneside Councils' commitment to supporting the development of the North East Combined Authority. 	For clarity and consistency
MM27.	6	2.5	22	...Sunderland City Council,	For clarity and consistency
MM28.	6	2.5 Para.1	23	The IAMP site will be located	For clarity
MM29.	6	2.5 Para.3	25	The site currently mainly comprises of arable farmland. The River Don runs through the centre of the area. The Grade II listed Hylton Grove Bridge runs over the River Don. The site was previously crossed by railway infrastructure which is no longer present on site and existing development is limited to mainly agricultural buildings which are distributed across the site along the A1290, off Downhill Lane and Follingsby Lane. The North East Land Sea and Aircraft Museums is are located in the southern part of the site next to the A1290 / Washington Road along with some residential properties. There are also approximately 2.5ha of playing fields located adjacent to the museums.	To reflect the Statement of Common Ground agreed with Historic England 260916/HISENG/029/B and to address the County Archaeologist (Rep: 1901816/CA/013/A) the councils propose to make reference to historical assets. To address the Statement of Common Ground agreed with Sport England (220916/SE/022) propose to make reference to the playing pitches.
MM30.	8	3 Para.1	29	... Once adopted, the IAMP AAP will form part of the statutory development plan for both Councils.	Grammatical error
MM31.	8	3 Para.2	30	The IAMP AAP has taken account of the IAMP's nationally significant status as a NSIP. The IAMP AAP is intended to guide the preparation of the DCO application and other applications that may be required and to inform its a DCO Examination.	For clarity and consistency
MM32.	8	3 Para.3	31	As the wider site includes other uses (including agricultural and residential) which may remain even once the IAMP is implemented, The IAMP AAP is also a development plan along with the two Councils' respective Local Plans for the determination of any planning applications submitted within the IAMP AAP area that are unrelated to the IAMP proposal itself will be assessed in accordance with the two Councils' wider development plans alongside the IAMP AAP, given that the wider site includes various uses (including agricultural and residential) that will remain even once the IAMP project is implemented.	Clarity
MM33.	8	3 Para.6	34	Adopted Plan ...A number of policies have been saved and still form part of the development plan. This includes saved policy EC1 which states that theSunderland City Council will encourage proposals which "develop the city's role as a major manufacturing centre, especially in relation to advanced or high technology processes". MM Ref	Page (August 2016 Publication Draft)	Policy or Paragraph (August 2016 Publication Draft)	Policy or Paragraph (August 2017 Version)	Proposed Changes (to the August 2016 Publication Draft)	Justification for Proposed Modification
				Allocations Plan and along with the IAMP AAP. The policies in the Revised Preferred Options draft Core Strategy (2013) have been taken into consideration in preparing the IAMP AAP.	
MM37.	8	3.2.1 New para.3	36	Sunderland's draft Core Strategy and Development Plan was approved by Cabinet in July 2017 for consultation. The draft Plan identifies the IAMP as a strategic priority, essential in the delivery of the Plan's spatial strategy.	To reflect updates to Sunderland's Local Plan
MM38.	8	3.2.1 Para.3		The draft Core Strategy Policy CS3.2 identifies land to the North of Nissan as one of two strategic sites. The Vaux site is the other strategic site and will compromise a mixture of business and residential uses. Policy CS3.2 explains that development on the north of the Nissan site will comprise land uses in use classes B1(b) (research and development), B1(c) (light industry), B2 (general industrial) and B8 (storage and distribution). Emphasis will be given to particular developments which support low carbon technologies. Offices (B1(a)) will only be acceptable when ancillary to the wider development and should not be of a scale where they impact upon the deliverability of office sites in Sunderland City Centre. It also states "the site will be developed to accommodate major employers and should be in accordance with an agreed masterplan. Piecemeal development will not be acceptable. Due to its location, a high standard of design and landscaping will be sought to minimise its impact on the landscape". The IAMP AAP sets out the framework for this masterplan and the policy framework to ensure comprehensive and not piecemeal development.	To reflect updates to Sunderland's Local Plan
MM39.	9	3.2.1 Para.5		Draft Policy CS3.4 states that subject to sufficient evidence to demonstrate demand for employment land which cannot be met within the existing employment land area, Sunderland City Council will work with South Tyneside Council to deliver this through the production of a development plan document at the earliest opportunity. The IAMP AAP is that development plan document, with the Commercial and Employment Technical Background Report providing the relevant evidence. The draft Core Strategy recognises that the strategic site to the north of Nissan will involve development of land within the Green Belt.	To reflect updates to Sunderland's Local Plan
MM40.	9	3.2.1 Para.7		Sunderland City Council's consultation on the Strategic Growth Options (May 2016) recognises that the exceptional circumstances case for the release of the site from the Green Belt will be considered through the IAMP AAP. The 'Exceptional Circumstances for releasing land from the Green Belt Technical Background Report' demonstrates the exceptional circumstances required to amend the Green Belt boundary.	To reflect updates to Sunderland's Local Plan
MM41.	9	3.2.2 Para.2	38	The South Tyneside LDF Core Strategy Development Plan Document (DPD) was adopted in 2007;. The Development Management Policies DPD was adopted	For clarity
MM42.	9	3.2.2 Para.5	41	The Exceptional Circumstances for Releasing Land from the Green Belt Technical Background Report; for the IAMP AAP demonstrates the exceptional circumstances required to amend the Green Belt boundaries in both local authority areas.	Grammatical error
MM43.	9	3.3.1	42	The purpose of the IAMP AAP is to guide the delivery of future comprehensive development at the IAMP. The IAMP AAP has been prepared in partnership by both Councils. It should be read as a whole alongside policies within the adopted and emerging Sunderland and South Tyneside Local development plans as these will continue to apply within the IAMP area, except where there is a site-specific policy set out in the IAMP AAP. The AAP policies map Policies Map at Appendix A updates that part of the proposals maps Proposals Maps of both Sunderland and South Tyneside's Local currently adopted development plans.	For clarity and consistency
MM44.	10	3.3.2 Para.1	43	<ul style="list-style-type: none"> • Enable... • Review... • Recognise the strategic importance of the IAMP (including its NSIP nationally significant status) 	To reflect updates to Sunderland's Local Plan
MM45.	10	3.3.2 Para.2	44	This approach is supported by the Planning Inspectorate who have which has advised that the benefits of preparing an AAP for the IAMP are that: <ul style="list-style-type: none"> • It allows for full consideration of all issues and options to ensure the selected site is the most suitable; • It provides a vehicle to demonstrate that proper co-ordination has taken place with other bodies and councils (under the Duty to Co-operate); • It involves an NPPF compliant method of securing changes to the Green Belt through the demonstration of 'exceptional circumstances'; and • It provides a clear policy context against which to consider future applications for DCOs and planning permission. 	Grammatical errors
MM46.	10	3.3.3 Para.1	45	<ul style="list-style-type: none"> • Environment and Ecology; • Landscape Character; • Transport; and 	For clarity and consistency

MM53.	11	3.5 Para.5	54	A The Duty to Co-operate Compliance Statement <u>accompanies the</u> will be provided by the Councils to accompany the IAMP AAP when it is submitted to the Planning Inspectorate. This will and explains how the d Duty to e Co-operate has been implemented.	For clarity and consistency
MM54.	11	3.6 Para.1	55	Preparation for of the IAMP AAP has undergone various issues and options consultation stages <u>in accordance with</u> under Regulation 18 of the Town and Country Planning (Local Planning) (England) Regulations 2012. <u>This is described in the Statement of Consultation.</u> , including: <ul style="list-style-type: none"> • The economic scenarios to determine the scale of the proposal; • Alternative locations across the North East region; • Alternative locations within Sunderland and South Tyneside; and • Alternative locations within the broad area of land to the north of Nissan. 	This section has been superseded by the Statement of Consultation contained in the Statement of Compliance (PSD10)
MM55.	11	3.6 Para.2		The previous stages of consultation undertaken to inform the IAMP AAP Publication Draft were: <ul style="list-style-type: none"> • IAMP for the North East Region (Consultation February to March 2015). This sets out a range of initial key issues and options for consideration in relation to the IAMP. It presented evidence regarding the need for an IAMP and consulted on a range of options to take account of the different economic scenarios, and included indicative maps showing alternative potential locations for the IAMP. 	This section has been superseded by the Statement of Consultation contained in the Statement of Compliance (PSD10)
MM56.	11-12	3.6 Para.2		• IAMP: Green Belt and Site Selection Options Paper (GBSSO, Consultation December 2015 to February 2016). This document built on the 'IAMP for the North East Region Consultation' taking into account comments on this initial consultation paper. The GBSSO presented the demand case for the IAMP in further detail, considering and discounting alternative locations across the region for a large scale employment site to meet the needs of the automotive and advanced manufacturing sectors. The document assessed the Green Belt area to the north of Nissan in order to understand the impact of potential boundary changes on the five purposes of Green Belt as defined in the NPPF. The paper also presented the proposed vision and objectives for the IAMP AAP along with analysis of three potential site options in the broad area to the north of Nissan.	This section has been superseded by the Statement of Consultation contained in the Statement of Compliance (PSD10)
MM57.	12	3.6 Para.3		The outcome of the previous consultations can be summarised as follows: <ul style="list-style-type: none"> • Preference for the 'moderate growth scenario' requiring a development of around 140 – 150 hectares to accommodate growth in the automotive and advanced manufacturing sectors; • Preference for the location of the IAMP on land to the north of Nissan; and • Preference for the site to be located adjacent to Nissan, broadly in line with Option 1 (as presented in the GBSSO paper). Consultation on the IAMP AAP Publication draft complies with the consultation process set out in the Sunderland City Council and South Tyneside Council Statements of Community Involvement (SCI).	This section has been superseded by the Statement of Consultation contained in the Statement of Compliance (PSD10)

MM Ref	Page (August 2016 Publication Draft)	Policy or Paragraph (August 2016 Publication Draft)	Policy or Paragraph (August 2017 Version)	Proposed Changes (to the August 2016 Publication Draft)	Justification for Proposed Modification
				<p>comprehensive development the scheme promoter in submitting a DCO application shall:</p> <ul style="list-style-type: none"> i. ensure the proposed development is designed and orientated to relate well to the existing employment area and Enterprise Zone and established infrastructure; ii. include a detailed masterplan incorporating a unifying design code; iii. include a phasing plan for 15 years for the delivery of the IAMP AAP area. This shall exclude the safeguarded land; and iv. show how the application complies with policy Del2. 	
MM73.	15	4.2.1 Para.1	78	<p>This policy releases 400ha-150ha of land to the north of Nissan within the IAMP AAP boundary from the Green Belt for allocation for employment uses. Within the AAP area, the current North East <u>Land Sea and Aircraft Sea Museums</u> is under review. This site will be appropriate for development if the museum is not required in this location, are present and are anticipated to remain on the site. There are also approximately 2.5ha of playing fields located adjacent to the museums. These will be retained on the site until deemed surplus to requirement by an up-to-date Playing Pitch needs assessment, in consultation with Sport England. Should the playing fields be required for development prior to being evidenced as surplus to requirements, they should be re-provided in accordance with Sport England's playing field policy exception E4.</p>	Proposed modification to reflect that it is anticipated that the Museum will remain on site and reflects representations received from David Robinson (100816/ROBINSON/037) North East Land Sea and Air Museum (260916/NELSAM/026) and Save the Trident (220616/STT/024) To reflect Sport England (220916/SE/022) representation and Statement of Common Ground that the playing pitches will remain on site until it can be justified that they are surplus to requirements.
MM74.	16	4.2.1 Para.4		<p>In order to accommodate future demand for employment related development and growth of established businesses, sufficient land should be made available to ensure the long term sustainability of the IAMP. The Spatial Strategy allocates 150ha of land for development of principal uses for development. The designation of 50ha of safeguarded land will ensure Green Belt boundaries endure beyond the end of the IAMP AAP period and support the future sustainability of the IAMP.</p>	To reflect approach to safeguarded land
MM75.	16	4.2.1 Para.5		<p>The amount of safeguarded land identified in this policy is determined using evidence from the Strategic Employment Review (PWC, 2013) and is justified in the Exceptional Circumstances for Releasing Land from the Green Belt Technical Background Report. This land has therefore been released from the Green Belt but safeguarded for possible development beyond the plan period, and will only be brought forward for development allocation through a future review of this AAP or the wider Local Plans of the two Councils.</p>	To reflect approach to safeguarded land
MM76.	16	4.2.1 Para.6	81	<ul style="list-style-type: none"> dDelivery of a world class facility on the necessary scale at a pace to meet market demand; eEnd user confidence in deliverability and the potential for future expansion; eEnvironmental mitigation measures and key infrastructure which are delivered alongside development proposals; and hHigh standards of design, place making and estate layout. 	Grammatical and clarity
MM77.	16	4.2.1 Para.7	82	<p>...on a piecemeal basis, whichas this would undermine...</p>	Clarity
MM78.	16	4.2.1 Para.8	83	<p>...to assemble the site for the IAMP and...</p>	Grammatical
MM79.	16		84	<p>The designation of approximately 110ha of land within the AAP area as an Ecological and Landscape Mitigation Area (ELMA) will provide a focus for implementing any mitigation and/or compensation for the impacts of the IAMP development on the area's habitats, species and landscape. The precise area within the ELMA that will be needed for mitigation and/or compensation will be proportionate and (together with the specific location of that area) will be determined through detailed environmental assessment supporting an application for consent, which will be the subject of consultation with landowners, statutory consultees and the public as part of that application process. The extent of the ELMA:</p> <ul style="list-style-type: none"> allows for flexibility in locating mitigation within it; is likely to allow for future mitigation of development of both the Employment Areas; and therefore demonstrates that there is sufficient land adjacent to the IAMP with the potential to deliver the 'worst case' amount of ecological mitigation necessary for the IAMP, which in turn supports the deliverability of the IAMP AAP. 	For clarity and to reflect the Statement of Common Ground agreed with the Church Commissioners
MM80.	16	Policy S2		<p>Policy S2: Green Belt and Safeguarded Land</p> <p>A. The IAMP AAP policies map shows areas designated as Green Belt or safeguarded land.</p> <p>B. Areas of safeguarded land shall only be released for development, through a review of the AAP, where it can be demonstrated that there is insufficient land within the allocated employment areas to accommodate development needs.</p> <p>C. Development adjacent to land designated as Green Belt shall ensure boundaries are recognisable and permanent through the use of built form or</p>	To reflect approach to safeguarded land

				established landscaping buffers.	
MM81.	16	4.2.2 Para.1		IAMP is a strategic site of national and regional significance. Removing 150 ha from the Greenbelt and allocating 100 ha for employment development in this Plan period and safeguarding 50 ha enables longer term development needs to be met without revisiting the Green Belt Boundary. This aligns with the NPPF which advises that Green Belt boundaries should not need to be altered at the end of the development plan period. It and recommends identifying areas of 'safeguarded land' between the urban area and the Green Belt in order to meet longer term development needs beyond the plan period. The IAMP AAP policies map updates the Council's existing adopted Local Plan key diagrams and proposals maps in respect of the new Green Belt boundary.	To reflect approach to safeguarded land
MM82.	17	Policy S3	Policy S2	<p>4.3.1 Principal Land Uses</p> <p>Policy S32: Principal Land Uses</p> <p>A. Through the DCO application, consent shall be granted for employment development, in the allocated employment areas on the policies map, where the intended uses directly relate to the automotive and advanced manufacturing sectors for <u>Development of the Employment Areas must be for the Principal Uses of production, supply chain and distribution activities directly related to the Automotive and Advanced Manufacturing sectors, as defined in paragraphs 86-87, and related Supporting Uses.</u></p> <p>B. <u>To ensure premises are retained for their original permitted use in the long term, the DCO must contain requirements to that effect, or otherwise the Councils may consider making a direction under Article 4 of the Town and Country Planning (General Permitted Development) (England) Order 2015 to that effect.</u></p> <p>B. Employment development proposals from other sectors for B2 uses and B8 uses shall be acceptable where:</p> <p>i. demand for this other type of use to be located within the IAMP can be demonstrated through market demand analysis; and</p> <p>ii. it can be demonstrated that this type of use is not detrimental to the operation or known needs of the principal uses and the objectives of the IAMP AAP or to the comprehensive development of the IAMP; and</p> <p>iii. it can be demonstrated there are no alternative, suitable locations.</p> <p>C. Development consent for B2 and B8 uses should be granted subject to DCO requirements to ensure premises are retained for the original permitted use in the long term.</p> <p><u>C. The North East Land Sea and Air Museums (NELSAM), as shown on the Policies Map, will be retained as a visitor attraction, with proposals to enhance the attractions being encouraged.</u></p> <p>D. Proposals for residential development and development outside of the parameters as set out within Policy S5, shall will not be permitted.</p> <p><u>E. Proposals for retail and leisure uses outside of the Hub, as shown on the Policies Map, will not be permitted, with the exception of the modest scale ancillary uses in the Northern Employment Area (denoted by an 'N' on the Policies Map).</u></p> <p><u>F. The Ecological and Landscape Mitigation Area (as shown on the Policies Map) is designated to provide a focus for mitigating and/or compensating for any adverse impacts of the IAMP development on the area's ecology and landscape.</u></p>	<p>To clarify the scale and quantum of the principal and supporting uses that will be allowed. AAP Monitoring Framework

Insert additional Sustainability Objectives table as follows:

AAP Sustainability Objectives and Policies

Sustainability Objective	AAP Policies
1. <u>Reduce the emissions of greenhouse gases within Sunderland and South Tyneside.</u>	D2, T2, T3
2. <u>Adapt to and mitigate the impacts of climate change in Sunderland and South Tyneside.</u>	D1, D2, IN2
3. <u>Protect our environmental assets and natural resources.</u>	D2, EN1, EN2, EN3, EN4, Del1
4. <u>Conserve and enhance biodiversity.</u>	EN1, EN2, EN3, Del1
5. <u>Protect and enhance our Green Belt and green infrastructure.</u>	EN1, EN2, EN3, Del1
6. <u>Support the efficient use of resources and minimise disposal of wastes to landfill.</u>	
7. <u>Facilitate economic growth at a local and regional scale.</u>	S1, S2, S3, S4, S5, D1, T1, T2, T3, T4, IN1
8. <u>Increase the provision of diverse employment opportunities for all across Sunderland and South Tyneside.</u>	S1, S2, S3, S4, S5, D1
9. <u>Increase opportunities for education and skills for Sunderland and South Tyneside.</u>	S1, S2, S3, S4, S5, D1
10. <u>Improve health and well-being of people and communities.</u>	S5, T2, T3, EN3, EN4
11. <u>Promote and enhance Sunderland and South Tyneside's culture and heritage.</u>	D1
12. <u>Create an integrated strategic road and public transport network within Sunderland and South Tyneside and to the wider region.</u>	S5, D1, D2, T1, T2, T3, Del1
13. <u>Promote sustainable transport choices for employees, residents and visitors.</u>	S5, D1, D2, T2, T3, Del1

Insert replacement Monitoring Framework table as follows:

Monitoring Framework

Policy	Target/Outcome	Indicator	Trigger and Contingency	Source
S1: Comprehensive Development	Successful release of 150 hectares of land from the Green Belt for comprehensive development Submission of DCO application to Planning Inspectorate Determination of DCO application by Secretary of State Submission and/or determination of planning application (including local development orders) under TCPA which contributes positively towards comprehensive development.	Submission of DCO to PINs by Spring 2017 which includes masterplan, unifying design code and phasing plan. Determination of DCO by the Secretary of State by Autumn 2018. Submission and/or determination of any planning applications (including LDOs) under the provisions of the Town and Country Planning Act, which are in accordance with IAMP masterplan, contributes proportionately to mitigation and achieves same design quality as IAMP design code.	If the DCO is not submitted and subsequently determined by 2020, both authorities will seek to prepare a joint Supplementary Planning Document (SPD) which will establish the overall masterplan and design code for the site.	Council Adoption Statement DCO Application Planning Applications or LDOs within AAP area submitted under Town and Country Planning Act
S2: Green Belt and Safeguarded Land	When and if it is necessary to release safeguarded land for development.	Take-up of employment land (ha). Proportion of overall allocated land which has been developed (%).	Once 50% of the allocated development land has been developed, a review of the AAP will be undertaken to consider if it is necessary to release safeguarded land for development.	Council's Local Plan Monitoring Database DCO Application Annual Data provided by IAMP LLP Updates to Sunderland and South Tyneside Employment Land Reviews
S2: Principal Uses	Development of Principal Uses on the IAMP site	Amount of B1, B2 and B8 floorspace completed (m ²) Proportion of this floorspace which is for Principal Uses (as defined by the glossary)(%).	The Council should seek to ensure through the DCO or by imposing an Article 4 Direction that no more than 10% of B-Class floorspace is taken up by non-principal uses	Council's Local Plan Monitoring Database DCO Application Annual Data provided by IAMP LLP Planning Applications within AAP area

Policy	Target/Outcome	Indicator	Trigger and Contingency	Source
				submitted under Town and Country Planning Act
<u>S3: Mix of Uses</u>	<u>Amount of floorspace developed for Principal and Supporting employment uses</u>	<u>Amount of floorspace completed for supporting uses (B1(a) and B1(b)) (m²)</u> <u>Amount of floorspace developed for Principal Uses (B1(c), B2 and B8) (m²)</u>	<u>Annual review of the proportion of take up of employment land for Principal and Supporting Uses.</u> <u>Where the amount of floorspace for Supporting Uses exceeds 20,000m² or 20% of floorspace developed, an early review of the plan should be undertaken.</u>	<u>Council's Local Plan Monitoring Database</u> <u>DCO Application</u> <u>Annual Data provided by IAMP LLP</u> <u>Planning Applications within AAP area submitted under Town and Country Planning Act</u>
<u>S4: The Hub and Ancillary Uses</u>	<u>Amount of floorspace developed for appropriate uses on the Hub and ancillary uses within the Northern Employment Area</u>	<u>Cumulative amount of floorspace developed for Use Classes C1, D2, B1(a), A1 and A3 within the Hub.</u> <u>Amount of floorspace developed for A1 and A3 Uses by single unit within the Hub and the Northern Employment Area.</u> <u>Number of bedspaces developed for C1 Use within the Hub.</u> <u>Amount of floorspace developed for nursery and child-care facilities.</u> <u>Completion of a multi-modal transport interchange.</u> <u>Density of development on the Hub (proportion of site area developed by hectare).</u> <u>Cumulative amount of A1 and A3 Use Classes developed in the Northern Employment Area.</u>	<u>Where the cumulative amount of development exceeds the thresholds set out within Policy S5, consider whether necessary to introduce appropriate restrictions or whether an early review of the plan should be undertaken.</u> <u>Should any individual A1 or A3 Use units exceed 250m², consider whether necessary to introduce appropriate restrictions or whether an early review of the plan should be undertaken.</u>	<u>Council's Local Plan Monitoring Database</u> <u>DCO Application</u> <u>Annual Data provided by IAMP LLP</u> <u>Planning Applications within AAP area submitted under Town and Country Planning Act</u>
<u>D1: Masterplan Design</u>	<u>Submission of a Design Code which addresses all of the design principles set out within Policy D1.</u>	<u>Submission of a Design Code alongside the DCO or any relevant planning applications made under the Town and Country Planning Act which addresses each of the design principles set out within the Policy.</u>	<u>If the DCO is not determined by 2020, both authorities will seek to prepare a joint Supplementary Planning Document (SPD) which will establish the overall masterplan and design code for the site.</u>	<u>DCO Application</u> <u>Planning Applications within AAP area submitted under Town and Country Planning Act</u>
<u>D2: Public Realm</u>	<u>Submission of a Public Realm Strategy which addresses all of the key principles set out within Policy D2.</u>	<u>Submission of a Public Realm Strategy alongside the DCO or any subsequent planning applications made under the Town and Country Planning Act which addresses each of the key principles set out within the Policy.</u>	<u>If the DCO is not determined by 2020, both authorities will seek to prepare a joint Supplementary Planning Document (SPD) which will establish the overall masterplan and design code for the site.</u>	<u>DCO Application</u> <u>Planning Applications within AAP area submitted under Town and Country Planning Act</u>
<u>T1: Highway Infrastructure</u>	<u>Completion of necessary transport improvements as set out within Policy T1.</u> <u>Submission of a Phasing and Transport Assessment which demonstrates how the proposals will provide suitable and safe connection and integration with Highways England's junction improvements to the Downhill and Testos junctions on the A19.</u>	<u>Monitoring the delivery of the necessary transport improvements in line with the timescales in the Infrastructure Delivery Plan (IDP).</u>	<u>Review the IDP and the delivery mechanism if any of the transport schemes are delayed.</u>	<u>Infrastructure Delivery Plan</u> <u>Highways England</u> <u>Annual Data provided by IAMP LLP</u>
<u>T2: Walking, Cycling and Horse Riding</u>	<u>Submission of a Design Code which addresses all of the walking, cycling and horse riding design principles set out</u>	<u>Submission of a Design Code alongside the DCO or any subsequent planning applications made under the Town and Country Planning Act which addresses each of the</u>	<u>If the DCO is not determined by 2020, both authorities will seek to prepare a joint Supplementary Planning Document (SPD) which will establish the overall masterplan and design code for the site.</u>	<u>DCO Application</u> <u>Planning Applications within AAP area submitted under Town and Country Planning Act</u>

<u>Policy</u>	<u>Target/Outcome</u>	<u>Indicator</u>	<u>Trigger and Contingency</u>	<u>Source</u>
	<u>within Policy T2.</u>	<u>design principles set out within the Policy.</u>		
<u>T3: Public Transport</u>	<u>Submission of details alongside the DCO and/or any planning application that all of the requirements within the policy have been met.</u>	<u>Submission of documentation alongside the DCO or any subsequent planning applications made under the Town and Country Planning Act which addresses each of the requirements set out within the Policy.</u>	<u>If the DCO is not determined by 2020, both authorities will seek to prepare a joint Supplementary Planning Document (SPD) which will establish the overall masterplan and design code for the site.</u>	<u>Nexus</u> <u>DCO Application</u> <u>Planning Applications within AAP area submitted under Town and Country Planning Act</u>
<u>T4: Parking</u>	<u>Identification of parking standards as part of IAMP Design Code.</u> <u>Submission of Travel Plan alongside the DCO and/or any planning application that all of the requirements within the policy have been met.</u>	<u>Submission of Car Park Management Plan</u> <u>Provision of disabled badge parking spaces (no. provided and % of all spaces provided which are for use by disabled badge holders only).</u> <u>Proportion of off-street parking spaces provided for the use of car-sharing only (%).</u> <u>Total number of parking spaces provided.</u> <u>Number of spaces provided for lorry parking provision.</u> <u>Number of on-street parking bays provided.</u> <u>Number of charging points provided for electric cars and bicycles.</u>	<u>If the DCO is not determined by 2020, both authorities will seek to prepare a Supplementary Planning Document (SPD) which will establish the overall masterplan and design code for the site, including the parking standards.</u>	<u>DCO Application</u> <u>Planning Applications within AAP area submitted under Town and Country Planning Act</u> <u>Annual Data provided by IAMP LLP</u>
<u>IN1: Infrastructure Provision</u>	<u>Delivery of necessary infrastructure to support the delivery of the IAMP.</u>	<u>Monitoring of the delivery of the projects identified within the Infrastructure Delivery Plan.</u>	<u>Review the IDP and the delivery mechanism if any of the transport schemes are delayed.</u>	<u>Infrastructure Delivery Plan</u> <u>Annual Data provided by IAMP LLP</u>
<u>IN2: Flood Risk and Drainage</u>	<u>Demonstration that there would be no net loss in floodplain storage capacity nor an increase in maximum flood levels within adjoining properties as a consequence of development.</u> <u>That run-off from the site (post-development) does not exceed corresponding greenfield rates, minimises pollution and provides multifunctional benefits to wildlife, landscape and water quality.</u> <u>That there is sufficient foul sewer network capacity, or the necessary upgrades are provided if insufficient capacity exists.</u>	<u>Submission of Flood Risk Assessment and Water Framework Directive Assessment as part of DCO or planning application.</u> <u>Submission of Surface Water Drainage Strategy as part of DCO or planning application.</u> <u>Water Quality Indicators for River Don.</u> <u>Delivery of any necessary foul sewer upgrades, as necessary.</u>	<u>If levels of flood risk on the site (as shown on Environment Agency's flood maps) increase as a result of the development, this will trigger an update to the SFRA to identify necessary mitigation to return flood levels to greenfield rates.</u> <u>If water quality along the section of the River Don through the IAMP and immediately downstream of the IAMP declines below current levels, the Councils will work with the Environment Agency to address the issues.</u> <u>If insufficient levels of sewer capacity are identified, the Councils will work with Northumbrian Water to rectify any deficiencies.</u>	<u>Environment Agency</u> <u>Flood Risk Assessment</u>
<u>EN1: Landscape Design</u>	<u>Establish landscape screening around development consisting of native broadleaf and evergreens</u> <u>Submission of landscape and visual impact assessment</u>	<u>Landscape planting to be undertaken in accordance with agreed design principles for the site</u> <u>Submission of a landscape and visual impact assessment as part of the DCO or planning application, which addresses all of the criteria set out within the</u>	<u>Review of landscape plan and contract annually for the first three years and then every 3 years until planted stock suitably established.</u> <u>Stock to be replaced or changed if unable to establish. Tree thinning to take place every 10 -15 years for the life time of the development in accordance accepted good practice</u>	<u>Council's Local Plan Monitoring Database</u> <u>DCO Application</u> <u>Planning Applications within AAP area submitted under Town and Country Planning Act</u> <u>Annual Data provided by IAMP LLP</u>

Policy	Target/Outcome	Indicator	Trigger and Contingency	Source
	which influences the design of the proposals to ensure that potential effects are avoided, minimised or mitigated.	<p>policy.</p> <p>Depth of landscape buffer provided alongside A19 (m).</p> <p>Depth of landscape buffer long provided along development edges (m).</p> <p>Number of buildings developed incorporating green and brown roofs and integrated green infrastructure and treatment.</p>	If the DCO is not determined by 2020, both authorities will seek to prepare a joint Supplementary Planning Document (SPD) which will establish the overall masterplan and design code for the site, including landscape design.	
EN2: Ecology	<p>Protect and enhance biodiversity</p> <p>Avoid/mitigate and compensate adverse impacts and provide net gains</p> <p>Submission of Ecological Impact Assessment which ensures that the development maintains and enhances biodiversity and wildlife habitats.</p> <p>Ensure that all Local Wildlife Sites (inclusive of proposed) are in favourable condition</p> <p>Retain Barn Owl population on site</p> <p>Increase the area of local priority habitats in accordance with the agreed management plan for the site</p> <p>Swales and Sustainable Drainage Systems (SuDS) to provide and take account of additional wildlife benefits</p>	<p>Submission of an Ecological Impact Assessment as part of the DCO or planning application, which addresses all of the criteria set out within the policy.</p> <p>Preparation and implementation of an appropriate long term management plan.</p> <p>Condition of Local Wildlife Sites within and immediately adjacent to the AAP boundary – undertake condition assessments of all Local Wildlife Sites directly and indirectly affected by IAMP</p> <p>Undertake breeding bird surveys in accordance with best practice guidelines</p> <p>Undertake annual surveys for barn owl and inspections of nesting and roosting units</p> <p>All planning applications to provide details to the Local Authority of habitat type and total area created</p> <p>Undertake native planting to complement the SuDS feature(s) and measure size of areas.</p>	<p>Undertake assessments 5 years after construction works commence on site then every 5 years. Should the sites be in unfavourable condition, habitat management works will be undertaken to help meet the favourable objectives for the sites</p> <p>Undertake annual surveys once mitigation measures are complete and then every 5 years. Revise management regime as required</p> <p>Undertake annual breeding surveys once mitigation measures are complete and then every 5 years. Annual inspection of nesting and roosting units. Revise management regime as required</p> <p>To provide bi- annual reports for the first 6 years once mitigation measures are complete and then every 5 years. Check habitats have been created and managed in accordance with planning permission and the agreed management plan for the site</p> <p>To provide bi- annual reports in the first 6 years of the mitigation measures being complete and then every 5 years. Should the species richness of the features be poor or decline over time amend maintenance plan</p> <p>If the DCO is not determined by 2020, both authorities will seek to prepare a joint Supplementary Planning Document (SPD) which will establish the overall masterplan and design code for the site, including the ecological mitigation and a long term management plan.</p>	<p>DCO Application</p> <p>Planning Applications within AAP area submitted under Town and Country Planning Act</p> <p>Local Authority Countryside and Wildlife Officers/Ecologists</p> <p>Local Nature Partnership and Durham Wildlife Trust</p>
EN3: Green Infrastructure	Provision of green and open spaces for recreational use within the development.	<p>Depth of landscape buffer provided alongside A19 (m).</p> <p>Delivery of new ecological mitigation area alongside River Don.</p> <p>Amount of open space provided (ha)</p>	If the DCO is not determined by 2020, both authorities will seek to prepare a Supplementary Planning Document (SPD) which will establish the overall masterplan and design code for the site, including the green infrastructure requirements.	<p>DCO Application</p> <p>Planning Applications within AAP area submitted under Town and Country Planning Act</p> <p>Local Authority Countryside and Wildlife Officers/Ecologists</p> <p>Local Nature Partnership and Durham Wildlife Trust</p>
EN4: Amenity	Submission of Construction Environmental Management Plan to demonstrate that appropriate mitigation measures are implemented to protect amenity.	<p>No. of complaints to local authorities Environmental Protection Officers as a result of amenity impact resulting from proposed development.</p> <p>Submission of a Construction Environmental Management Plan as part of the DCO or planning application, which identifies and implements appropriate mitigation measures relating to amenity.</p>	If more than 10 justified complaints are received by the Councils' Environmental Health Officers from different individuals within a given year, the Councils will seek to take necessary measures to resolve conflicts through mediation with developers and complainants.	<p>Planning application/ Consultation on the DCO</p> <p>Local Authority Environmental Health Officers</p>
Del1: Phasing and Implementation	Submission of Phasing Strategy, Mitigation Strategy and Management Strategy to ensure	Delivery of the development in accordance with the Phasing Strategy, Mitigation Strategy and Management Strategy.	If the development is not brought forward in accordance with the Phasing Strategy, Mitigation Strategy or Management Strategy, a review of the AAP will be undertaken.	<p>DCO Application</p> <p>Planning Applications within AAP area submitted under Town and Country Planning Act</p>

<u>Policy</u>	<u>Target/Outcome</u>	<u>Indicator</u>	<u>Trigger and Contingency</u>	<u>Source</u>
	<u>comprehensive development.</u>			<u>IAMP LLP</u>
<u>Del2: Securing Mitigation</u>	<u>Levels of mitigation achieved through articles, protective provisions and requirements of the DCO or other planning obligations.</u>	<u>Number of planning conditions and obligations linked to environmental mitigation.</u> <u>Amount of money agreed/received through planning contributions towards environmental mitigation.</u> <u>Delivery against the Infrastructure Delivery Plan</u>	<u>Review the IDP and the delivery mechanism if any of the mitigation schemes are delayed.</u>	<u>DCO Application</u> <u>Planning Applications within AAP area submitted under Town and Country Planning Act</u>
<u>Other 1: Migration and Housing</u>	<u>Levels of additional in-migration and housing needs generated by the IAMP</u>	<u>Numbers and proportions of IAMP employees moving into the North East of England from elsewhere to take up jobs within the IAMP:</u> i) <u>within B-Class uses;</u> ii) <u>within the Hub's uses.</u> iii) <u>where they moved to the NE region from;</u> iv) <u>which NE districts they have moved to live in.</u>	<u>If in-migration levels significantly differ (>10% higher or lower overall and in terms of the distribution between districts) from the levels predicted in the IAMP Impact Study, then review the study's recommended growth scenarios and/or review the Impact Study itself.</u>	<u>IAMP LLP and NELEP</u> <u>SHMAs</u>
<u>Other 2: Employment</u>	<u>Employment land needs – levels of displacement and multiplier effects generated by the IAMP</u>	<u>Where IAMP occupier businesses have moved from to relocate within the IAMP.</u>	<u>If displacement levels significantly differ (>10% higher or lower) from the overall levels predicted in the IAMP Impact Study then review the study's recommended growth scenarios and/or review the Impact Study itself.</u>	<u>IAMP LLP and NELEP</u> <u>Employment Land Reviews</u>
